

## Client Relations

Clients deal with specialists. A host of talented professionals perform with the highest level of integrity and ethical behavior.

We believe in keeping our clients satisfied all the time by providing prompt and personalized service that enables them to meet their investment objectives.

We offer two types of Broking / Dealing Services :-

### **Dealing Service Advisory Service**

To open an account with us you would need to provide us with the following:

- Broker Client Agreement
- Margin Money (as per exchange rules)

Call us for up to date facts and figures of stocks before you make your investment decision. One of our experienced executives will be pleased to give you an advisory service whenever you require it.

Our brokerages vary on the type of service you require. If you would like to know more about our brokerages and services or want a client agreement form, please e-mail or call us for more details.

# Jaypee Capital Services Ltd.

*your investment, our responsibility*

## About Us

**Feel Green behind the ears about playing in the world of bulls and bears???**

We'll tell you all in black and white - how to weigh your options and how to invest wisely.

**Jaypee Capital Services Limited** has been a forerunner in providing quality services to its clients. As a corporate member of the National Stock Exchange of India Capital Market Segment and the Self Clearing Member of the F&O Segment, we provide trading, research and advisory services for the same.

Our expertise is in quick execution of the trades for our clients and providing them with quality personalized service to help them meet their financial goals.

Jaypee Capital Services Limited is a registered Corporate Member-Capital Markets Segment with National Stock Exchange of India and Self Clearing Member-Derivatives Segment. We are one of the largest players in the derivatives segment. Our team consists of 20 specialist traders certified by NSE. We bank on their expertise and experience to capitalize on the daily stock movements. We employ a host of strategies combining index and stock futures and options depending upon our equity analysis and research and use them for the benefit of our clients.

Order execution is our main strength; our endeavour is to get the **"deals done"** as soon as you place them. We want our clients to take advantage of each and every tick movement.

## Our Methodology

**Markets are Always Right! And we respect that...**

The difference between a successful and an unsuccessful investor is not essentially that the latter makes more mistakes but the difference in their ability to maximize the returns from winning trades and minimize the losses from the mistakes. Through our market research and analysis we ensure that we are in line with the market, both on the bull and the bear side, enabling you to be a successful investor.

For us Time is truly precious. It is the decisive factor in the investment world. With every tick of the clock, fortunes are made and opportunities are lost. We strive to realize the value of every split second for our valued clients that opens up exceptional trading opportunities.

We advise our clients on a daily basis on how to maximize returns by suggesting exit or re-entry points in their respective positions while keeping in mind their investment objectives, personal finance situation, time horizon and risk taking ability.

At Jaypee Capital Services, teams of skilled financial professionals constantly monitor a whole gamut of investment opportunities in companies so as to recommend buy/sell on the basis of their analysis and research. The Companies are selected on the basis of various quantitative and qualitative factors.
